

Welcome to

Welcome to  
Better Meetings.

*The Power and Flexibility of the PC with the Simplicity and Security of an Appliance*

The Quicklaunch™ application is a simple and secure meeting room interface that provides multi-platform integration to transform any PC into a one click meeting space. Create a one-touch meeting rooms based on the platform of your choice using either Microsoft Exchange or Google Calendar

*Create Your Meeting Room: Skype for Business, Google Hangouts Go To Meeting, WebEx, Zoom, Blue Jeans, Adobe Connect, Pexip, Simplicity, Skype, Skype Broadcast, FreeConferenceCall.com and more*

Quicklaunch™ is built with security in mind. Unlike other meeting room applications that can unknowingly leave behind temporary files containing sensitive data. Quicklaunch™ keeps your confidential data secure with the 'Room Reset' feature which clears temporary, files, cache and more to delete the data before the next group meets. Quicklaunch™ also has an optional 'lock-down' mode to further restrict the usage of the PC in the meeting room.

With Quicklaunch™, your meeting space is always ready to join or create new meetings with a simple touch. Quicklaunch™ is more than just a system to join meetings with one-touch. It seamlessly brings multiple technologies together into a single application, enabling collaboration rather than complicating it.
